v.

PUBLIC.RESOURCE.ORG, INC.,

Defendant-Counterclaimant.

Case No. 1:13-cv-01215-TSC-DAR

DEFENDANT-COUNTERCLAIMANT PUBLIC.RESOURCE.ORG'S MOTION FOR SUMMARY JUDGMENT

Action Filed: August 6, 2013

Defendant/Counter-Claimant Public.Resource.Org, Inc. ("Public Resource") respectfully moves for summary judgment that Public Resource's reproduction, display, and distribution of the 256 incorporated standards listed in the First Amended Complaint does not constitute either copyright infringement or trademark infringement.

As described in the attached Memorandum of Law in Support Of Defendant's Motion for Summary Judgment and Opposition to Plaintiffs' Motion for Summary Judgment And Permanent Injunction, there are no genuine issues of material fact that would preclude summary judgment in favor of Public Resource. Plaintiff/Counter-Defendants American Society for Testing and Materials d/b/a/ ASTM International ("ASTM"), National Fire Protection Association, Inc., ("NFPA"), and American Society of Heating, Refrigerating, and Air Conditioning Engineers ("ASHRAE") (collectively "Plaintiffs") cannot assert copyright in the incorporated standards at issue because those standards are binding laws of the United States and

numerous states and localities. No one may assert a proprietary legal interest in the text of the

law or restrict its distribution. In addition, the incorporated standards are not copyrightable

subject matter, and Public Resource's use of the incorporated standards is a non-infringing fair

use. Further, Plaintiffs lack standing to bring this lawsuit as to most of the incorporated standards

at issue because even if a copyright existed, Plaintiffs would not hold it because the text of the

standards was drafted by others who did not assign their rights to the Plaintiffs. Finally, Plaintiffs

cannot use trademark claims to replace their deficient copyright claims. Undisputed facts show

that Public Resource's reproduction of Plaintiffs' word marks and logos within the incorporated

standards does not cause consumer confusion and is a nominative fair use.

Public Resource requests an oral hearing on its motion and opposition to Plaintiffs'

motion for summary judgment.

This motion is based on the enclosed Memorandum of Points & Authorities, the

Declaration of Carl Malamud, the Declaration of Matthew Becker, Public Resource's Request

for Judicial Notice, Index of Consolidated Exhibits and Exhibits filed with this motion, Public

Resource's proposed order, the pleadings and papers on file herein, and any further material and

argument presented to the Court at the time of the hearing.
